CUSTOMER TESTIMONIALS

"I believe this is the 4th year we have been working with TriumphHealth. The great references I received from other TriumphHealth customers is what sealed the deal for me. Their consultants are always current on the last-minute changes to MIPS, they know Allscripts extremely well and know how to handle any issues and working out bugs in the software. I am not able to keep up with MIPS on my own, I would be lost without our consultant Tiffany. The continuity of working with the same consultant since the beginning, gives me a great peace of mind."

**Office Manager
Delmarva Surgery Center**

"We came across TriumphHealth at random, however after my first conversation with Riley, then my follow up consultation with Kristy, the Director of Revenue Cycle Services, I felt very comfortable and confident that TriumphHealth would meet our credentialing needs. We have been extremely happy with the care, expertise and communication that Kristy Lee and the credentialing department has provided to us through this process."
